ELECTRICAL TEST & TAG COMBINATION OFFER

Do you want to start a career as a Test & Tag Technician ?

or

Do you want to be able to Test & Tag your own equipment ?

Active TEC provides a combination training and equipment offer to assist people who want to legally Test & Tag Electrical Cord Connected Devices.

This offer provides both the training and equipment needed to meet the Australian & New Zealand Standard 3760 , for testing and tagging electrical equipment .

Training and Competency (Both units are provided within this combination offer).

The AS/NZS3760 advises persons involved in the testing and tagging of Electrical Equipment must have achieved the relevant level of competency, this is achieved via two (2) recognised units of competency.

1. UEENEEE101A (OHS/WHS) must be completed as a "prerequisite" to being eligible to participate in the Test & Tag unit.

2. UEENEEP026A (Test & Tag) is required to establish competency as a test & tag technician.

For further details of these two course units please visit our website and preview our brochures.
